Alumini's Feedback Academic Year 2023 – 2024

Action Taken Report

Action Taken Report on Alumni Feedback for the Academic Year 2023-2024

As stated in the Minutes of the Governing Body Council and Academic Council

Date of Feedback Collection:

27th January 2024

Date of Report Analysis:

17th February 2024

Following the analysis of the alumni feedback for the academic year 2023-2024, the institution has taken the following actions to address the suggestions raised. These changes will be implemented to enhance the overall student and alumni experience:

Alumni Suggestions and Actions Taken:

1. **Introduction of Certificate Courses Related to Job Opportunities:**

Alumni expressed the need for certificate courses that are directly linked to enhancing job opportunities for current students. In response to this suggestion, the institution has decided to introduce specialized certificate courses that are tailored to meet the demands of the job market. These courses will provide students with practical skills and knowledge that will improve their employability and prepare them for industry-specific roles.

2. **RO Water Facility for Students:**

Alumni recommended the installation of Reverse Osmosis (RO) water facilities to ensure that students have access to clean and safe drinking water. In response to this concern, the institution has decided to implement RO water dispensers across the campus. This will ensure a continuous supply of purified drinking water for students, promoting their health and well-being.

Conclusion:

The institution values the feedback provided by the alumni and acknowledges the importance of staying connected with former students to improve the quality of education and student services. The actions taken based on the alumni suggestions will be implemented to improve both the academic and campus experience for students.

The institution remains committed to making continuous improvements based on feedback from all stakeholders, ensuring that the needs of students, alumni, and the broader community are met effectively.
